STATINTL

[REDACTED]
Associate Coordinator for Academic Relations
Central Intelligence Agency
Langley, Virginia

Dear Brian:

I want to tell you again how much we appreciated your participation in the Scholar-Diplomat Seminar on East Asia and the excellent fashion in which you coordinated our visit to your Agency. The scholars were so intrigued by the prospect of the visit itself that you probably could have said anything to them and still received a favorable review. As it was, however, they were very pleased with your presentation, especially as it described the primary functions of the CIA and the Agency's relationship to the academic community. STATINTL

The scholars also thought highly of [REDACTED] presentation and the opportunity it gave them to see, as they put it, "an analyst in action." Some thought a similar presentation on another country would have been an additional plus.

As for me, I was happy just to be able to give them an idea of how our organizations interact and where the division of our responsibilities lies. I hope we can do this again.

Sincerely,

A handwritten signature in cursive script, appearing to read "Diane C. Salisbury".
